CREATIVE UTOPIANS SEEK SAME

What does an artist have in common with a software developer? A book publisher with a casting agent? A film producer with a graphic designer? An architect with a music engineer? A marketing copywriter with a gallery owner?

WANT TO FIND OUT . . . ?

You Are: A creative professional, an artist or an entrepreneur working in the creative trades with an insightful ear to the ground.

We Are: Artscape, Evergreen, MaRS, Ontario College of Art and Design, Toronto International Film Festival Group and the Canadian Film Centre. We're partnering with the City of Toronto, TEDCO, University of Toronto Cultural Economy Lab and the Ontario Media Development Corporation. Together we are the Creative Convergence Project!

LET'S MEET!

We want to know what you have to say about the needs and sustainability of Toronto's creative community.

THE EVENT

Place matters. It's where you make your art, design your building, create your software, craft your stories. To succeed, you need the right space, neighbourhood, people and networks.

We want to know – what does place mean for you?

We are hosting a series of World Cafes – interactive events that engage our collective intelligence through conversations that matter.

By participating, you want to drive the content and be part of an exciting dialogue – think new social relationships, creative collaborations, shared resources and business opportunities.

Join us!

Awesome snacks and non-alcoholic beverages on us. Cash bar.

Facilitated by Misha Glouberman of *Trampoline Hall Lecture Series*, *The Drake Hotel's Room 101 Games Series* fame.

RSVP PLEASE

Robyn Connelly at: robyn@torontoartscape.on.ca OR **416-392-1038 x43**
